EXPERIENCE

CAAPID Simplified | *Ed-tech Startup*

Remote

Lead Developer

Aug 2024 – Present

- Lead the tech team across a suite of Laravel products serving internationally trained dentists applying to US dental programs, covering courses and LMS, mock tests, document writing, and coach booking. Work several projects at once, coordinating a cross-functional group of developers, designers, and coaching and content staff.
- Own the commerce stack: Stripe through Laravel Cashier with subscriptions and EMI plans, cart and bundle rules, coupons, and per-page pricing. Built the Google Chat, Drive, Sheets, and Calendar/Calendly integrations backing coaching delivery.
- Ship Filament admin panels with role and permission based access. Currently leading a rewrite of the customer-facing app on Laravel 12 with Inertia, React, and TypeScript.

Hotelo App | *Adidhi Hospitality Solutions Pvt Ltd*

Remote

Lead Back-end Developer, Shareholder

Sept 2024 – Present

- Sole back-end developer for a hospitality job platform connecting hotels and restaurants with job seekers, now past **50,000 registrations** across iOS and Android. Built the back-end from scratch: a versioned REST API with JWT auth, and a Filament admin console with role and permission based access.
- Built the employer-side candidate search, ranking applicants by a weighted SQL relevance score over PostGIS distance decay, position and experience fit, and availability, with banded scores and per-employer tie-breaking so comparable candidates share exposure.
- Runs on Laravel and PHP with PostgreSQL + PostGIS, Redis and Horizon for queues, S3 pre-signed uploads behind CloudFront, and FCM for push. Pest tested, deployed via Laravel Forge.
- As a shareholder, set company strategy and build investor pitch decks, alongside hiring, naming the product “Hotelo”, the design language of the app, and the marketing website in Next.js and Tailwind CSS.

Admire Creations

Ernakulam, Kerala, India

Technical Lead, Co-founder

Nov 2022 – Present

- Co-founded the studio and set its direction, reading the market, scoping and assigning client projects, and pursuing growth opportunities for the company.
- Deliver client work end to end across a range of stacks: a Django and DRF backend behind a Next.js storefront, custom WordPress themes, and Dockerised PHP sites, along with the design in Figma, SEO, and hosting each one needs.

Indic Law | *Startup*

Ernakulam, Kerala, India

Project Manager, Front-end / Back-end Developer, DevOps Engineer, UI Designer

Oct 2020 – Sept 2022

- Grew from designing the MVP of an edu tech mobile app in Figma into building it: a custom React.js CMS on the Ant Design System, backed by RESTful APIs on an Express.js + MongoDB codebase with role and module permission based editing.
- Implemented CI CD with Docker, Jenkins, EC2, ECR, IAM, Route 53, and ACM, ran gitops on AWS EKS with ArgoCD, and went on to manage the joint tech team along with the company AWS account and GitHub organisation.

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, PHP, C, Java, Lua, CSS, HTML

Databases Management: PostgreSQL (PostGIS), MongoDB, MySQL, Redis

Web Frameworks: Laravel, React.js, Next.js, Express.js, Nest.js, Inertia.js, Livewire, Tailwind CSS

Tools, Cloud & CI/CD: Filament, Stripe, Firebase (FCM), Google Workspace APIs, WordPress, ERPNext, Docker, Jenkins, Laravel Forge, AWS (EC2, S3, CloudFront, Route 53, EKS, ECS)

Design Tools: Figma, Adobe Photoshop, Adobe Illustrator, Blender

EDUCATION

TKM College of Engineering - CGPA 8.35

Bachelor of Technology - BTech, Computer Science

Kollam, Kerala, India

Aug 2017 – Nov 2021
